

# The Deprecated Library: Java Swing

...

*#You're about to hate programming*

# What is Swing?

Swing is the deprecated graphics library in Java

**So why do we still use it?**

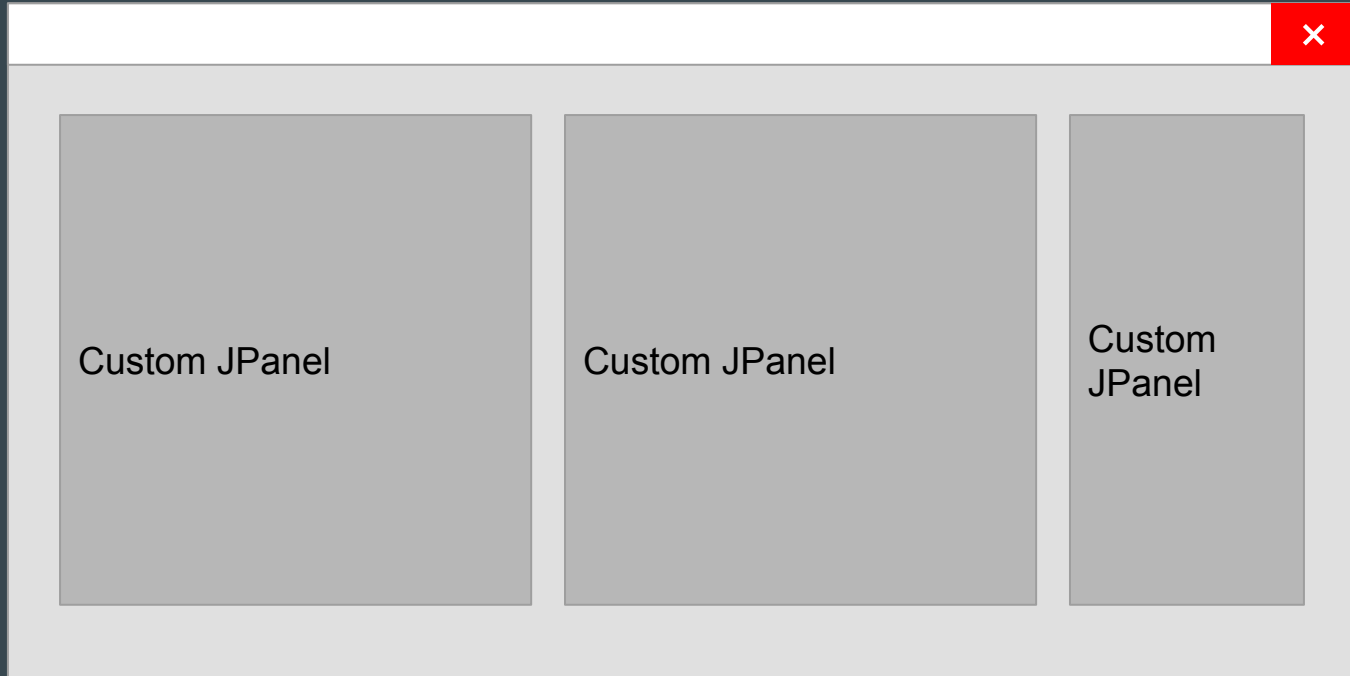

**It's actually still pretty good**

# Major Components

# JFrame

# JPanel

Create custom JPanels and place them inside your JFrame

JButton  
JSlider  
JCheckBox  
JOptionPane  
JMenu  
JSpinner  
JTextField  
JRadioButton  
JFileChooser

(and more...)

**Consult the API for more  
information**
