

Final Projects

Leap@CMU 2017

You will have the **remainder of Leap** to design a develop a final project showcasing what you have learned this summer.

Android App or Java **Swing**.

Must have some **practical** application.

Should **not** be simplistic or low effort.

Do **not** choose something overly ambitious.

OCR Algorithm
Image Viewer
Music Generator
Risk Game
Drum Simulator
Calorie Counter App

These are past projects. Do not use these.

You have the next few days to **brainstorm**.

All final projects must be **approved** by the TAs.

We are here to **help** you.

Good Luck.
